EVM Metal Extract Air Valves

- **Name:** Metal Extract Air Valve
- **Sizes:** 80mm–250mm
- **RAL Finish:** 9010 & 9016
- **Certification:** ISO9001
- **Function:** Regulating air extraction with in a space. To be used with ventilation systems
- **Material:** Sheet steel
- **Collar attachment** as standard
- **Paint:** Corrosion protective powder coat

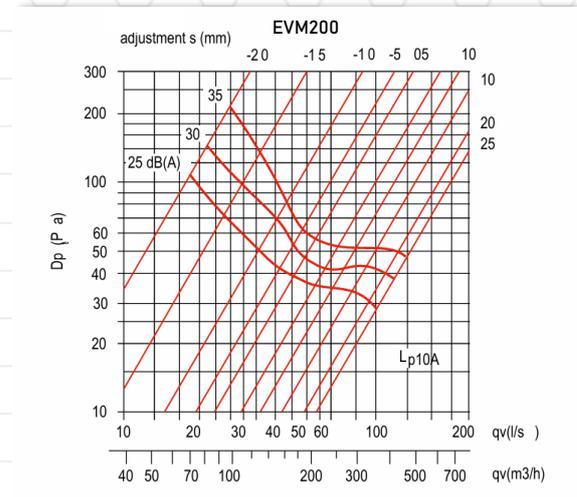

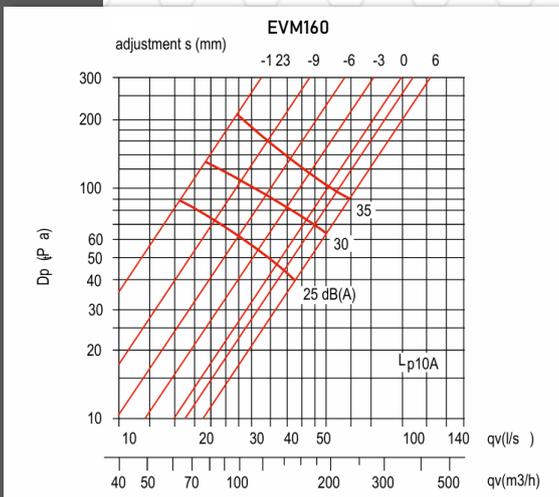

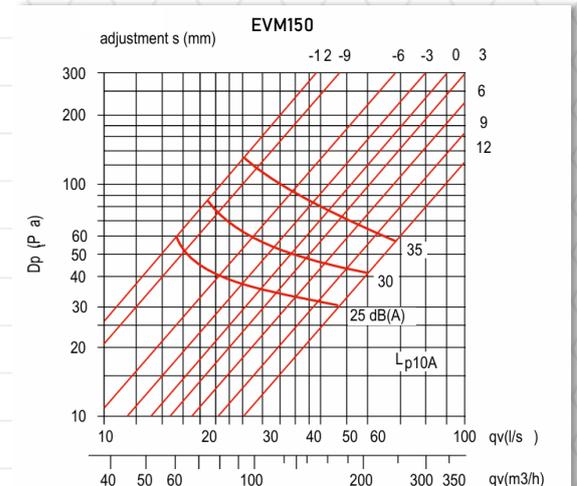

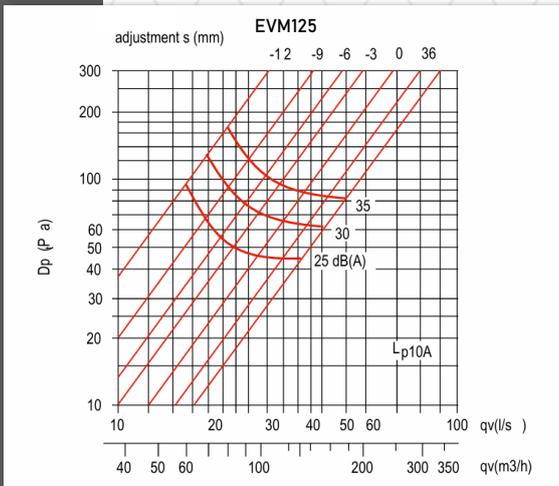

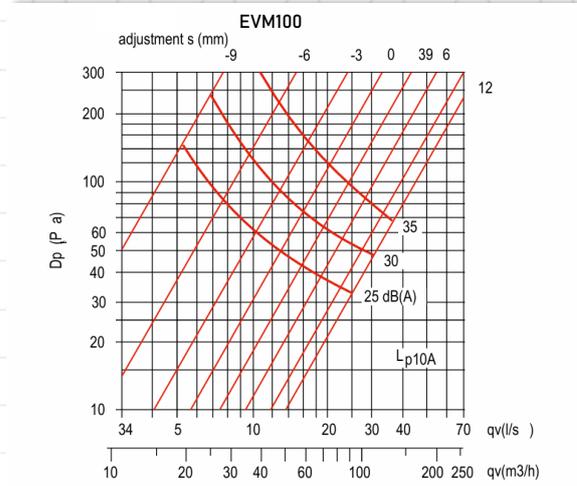

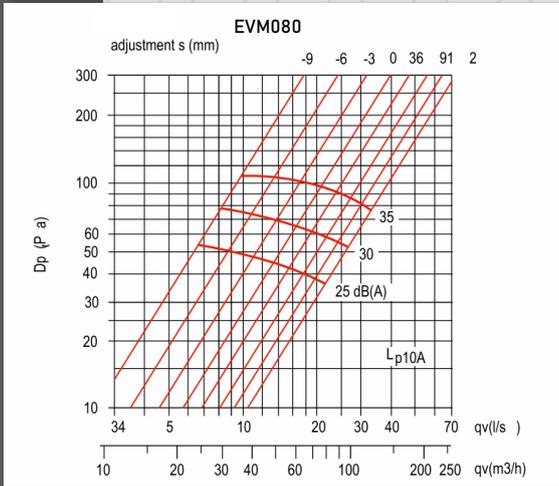

Product Code	a	b	c	Ø
EVM080	116mm	60mm	40mm	80mm
EVM100	140mm	75mm	40mm	100mm
EVM125	166mm	98mm	46mm	125mm
EVM150	204mm	119mm	54mm	150mm
EVM160	209mm	129mm	54mm	160mm
EVM200	248mm	157mm	59mm	200mm
EVM250	302mm	202mm	65mm	250mm

Easy Installation

The metal valve collar is connected to the ductwork above ceiling level via fixing tape or banding clips. The air valve screws easily onto the mounting collar and is tightened into position. The central nozzle can now be adjusted using the fixing nuts to regulate the desired air flow.
